

## **Children's movies**

Our school students, with the help of their teachers, create their own films. Some of them have also won major awards at the Zizanio International Children's and Youth Film Festival.

By clicking on the image below, you can visit our school channel on youtube and watch all the films made by our students from 2001 to today. Hopefully we will have the opportunity to enrich our film library with more children's creations. Enjoy!
